

Solve each problem.

1) The table below shows the number of books Katie read the first 3 months of school.

Month	Books Read
1	36
2	39
3	39

If Jerry read 8 times as many books as Katie, how many more books did Jerry read?

2) The table below shows the pounds of candy a company sold in the months leading up to October.

Month	Pounds of Candy Sold
June	191
July	128
August	139
September	119

In October they sold 10 times as many pounds of candy as they did in the previous 4 months combined. How many fewer pounds of candy did they sell in the previous 4 months compared to in October?

3) The table below shows the points Bianca scored on a video game each time she played.

Game #	Points Scored
1	141
2	162
3	160

After the first 3 games, she took a break and came back the next day and scored 3 times as many points as she had during all the previous games combined. How many more points did she score after her break?

4) A new fast food restaurant opened 5 months ago. The table below shows the number of burgers they've sold so far.

Month	Burgers Sold
1	3,632
2	3,879
3	3,070
4	3,951
5	2,556

The next month (after spending some money on an ad) they sold 8 times as many as they had sold in the previous 5 months. How many more burgers did they sell after running the ad?

Answers

1. _____
2. _____
3. _____
4. _____
